

VINCENT 2017 TOUR SHOW & WORKSHOP COSTS

Vincent comes in its two show formats;

“Show A” – the full theatrical show with our beautiful touring set and lighting package, suitable for larger venues with a fly tower, and

“Show B” – the intimate show, a scaled back version suitable for smaller venues, galleries, or fundraiser performances with elements of our set and lighting package brought to you.

Below is a cost breakdown of the individual shows outlining your costs as a venue/promoter and also the workshop extras that you receive as part of that cost. We are always open to negotiation when it comes to splitting show costs over multiple venues that are working in a partnership (i.e. multiple regional galleries sharing the cost of an intimate performance in each venue), so please do not hesitate to speak to us about that as a possibility.

SHOW A - The Full Theatrical “VINCENT” Experience							
Number of Shows In Venue	1 st Show Cost	2 nd Show Cost	3 rd and Subsequent Show Cost	Total Venue Cost	Box Office Royalties	Optional Workshop Included	Workshop Value
1	\$8000.00			\$8000.00	10%	1 x 4hr	\$450

*NB: some additional show costs may be paid in way of accommodation expenses by negotiation only
NB: Vincent is not registered for GST and as such, prices above do not include a GST charge*

Vincent comes with a number of workshop, master class and community engagement programs. Some of these are included as an optional extra with the purchase of a show, and some come with additional costs as they will be tailored to suit your communities demographic needs; including:

- **Included Optional Workshop (2/4 hours) - \$450 Value**

Join the VINCENT Dancers and Artistic Director Melissa Lanham as they guide you through some unique contemporary dance techniques. Topics covered include physical theatre, dance theatre techniques, contemporary warm up, contemporary dance. There are two levels

Level 1: Intermediate (10yrs to 14yrs), and

Level 2: Seniors (15yrs to 18yrs).

The workshop is aimed at mid to advanced level dance students, however beginners are also invited to participate. It is a fantastic event to invite local dance schools, dance clubs or groups too and then have them watch what they have learned.

- **‘Be a Company Dancer for the Day’ (6 hours) - \$1000.00**

This is a full day of workshops with the Company and Choreographer. The morning will have workshops for both levels (as above) running simultaneously and taken by the dancers of Vincent. After lunch there will be a masterclass taken by Melissa (VINCENT’s Artistic Director) teaching repertoire, partnering, improvisation and task work.

Students can then join the dancers for Company Class on the stage before watching the performance in the evening. There is also the opportunity for pre/post show performance Q & A with the company including the choreographer and production manager and a tour of the set including the lighting design.

- **Starry Night – Community Engagement Program (1-4 weeks) - \$2500.00**

This community engagement program aims to involve participants from outside the dance world via different artistic channels. The Starry Night program involves aligning with a local visual artist(s) and/or gallery to work alongside Artistic Director Melissa Lanham in sharing the messages from VINCENT about social inclusion, depression, isolation, love and loss.

The workshop works in 2 sections, both are completely customizable for your audience size and demographic:

Section 1: The local visual artist facilitates workshops in painting, drawing, visual expression, sculpting etc to allow participants to experience new ways of expressing themselves. Participants can be of any age or skill. These art pieces are then exhibited in the foyer of the venue, window of the local art gallery or similar as part of a “Vincent exhibition” which is shared through performance publications, a ‘behind the scenes blog’, a photo exhibit of the project, social media updates and press releases.

Section 2: Participants who are willing and able complete section 1 and 2 simultaneously, or do only section 2, which involves a dance component. Melissa will come into schools (public, private, or state), dance schools, and community groups’ weeks before Vincent hits town to facilitate and choreograph a full performance work combining all schools together to create a performance around ‘Starry Night’ coinciding with the Exhibition.

As part of this project there is also the opportunity to

- Join in with company class with the Vincent Dancers
- Watch an open rehearsal of Vincent or
- Watch rehearsal of a new work in progress to see how the choreographic process happens.
- Pre/post show talks and Q & A with the Company including the choreographer and production manager
- A master class with Melissa Lanham

When VINCENT comes to town, Melissa and her production team bring the student/community show “Starry Night’ to life on stage, after the opening act of Vincent, effectively making the show a 2 act local talent exhibition. VINCENT production staff, and the touring technology will be on hand to deliver a stunning performance for the participants, now with the ability to perform whilst on stage.

Meanwhile, the art works created by the visual artist and participants is proudly presented in the venue to be displayed for a time appropriate for your venue/town.

As always, these workshops are completely customizable in shape and size to suit your venue, town, community or demographic. We have a range of intimate performance options available also if smaller, high-end clientele are whom you wish to aim Vincent at whilst in your town. This can be a sole performance, or in addition to you’re public viewing of the show in your venue.
